### **DETAILED ACTION**

1. This office action is in response to amendment filed 12/03/2003.

#### ***Allowable Subject Matter***

2. Claims 1-14 are allowed.

#### ***Reasons for Allowance***

3. The following is an examiner's statement of reasons for allowance:

The primary reason for allowance of the claims is the inclusion of conductive element mounted on the base, which may be brought into contact with, and bridge a fuse, so as to provide operable conductive communication between elements connected to a fuse.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Pertinent Art***

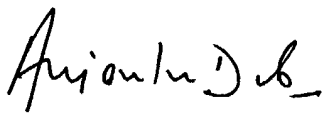

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Muller (US 6,545,927 B1) discloses an apparatus (Fig. 3) comprising conductive element S1 mounted on base 10 that bridges a fuse F1. Muller did not expressly disclose that conductive element may be brought into contact with the fuse so as to bridge the fuse, instead Muller discloses a conductive element S1 (switching device) connected to the leads of a fuse so as to bridge the fuse by closing the switch S1.
